# INTRODUCING GREENFIELDS SLIDE MAX PRO NF

NON-INFILL SYSTEM DESIGNED TO MEET FIFA QUALITY PERFORMANCE

## GREENFIELDS SLIDE MAX PRO NF

GreenFields Slide Max Pro NF is a non-infill alternative to conventional FIFA Quality turf systems developed to meet the increasing global interest in environmentally friendly but high-performing and durable football turf systems.

The unique design of the TenCate Monoslide XQ fibres ensures long-lasting consistent play performance, optimized rotational friction to reduce injuries, and no slide when the foot lands. The absence of infill means no issues with infill splash or migration, no need for expensive infill top-up or decompaction and, for outdoor fields in cold-weather conditions, no need to wait for frozen infill to thaw.

Installation costs are lower than for infill turf systems (an optional sand dressing can be applied to improve surface stability), and simple brush-only maintenance will maintain top turf performance. GreenFields Slide Max Pro NF is ideal for high-usage community fields and multi-sport applications where maintenance budgets are lower and where infill is not desired.

### Technical features

- ✔ TenCate Monoslide XQ™ diamond shaped fibres
- ✔ 19.920/14 dTex
- ✔ XQ Polymer
- ✔ 9 years UV warranty
- ✔ Designed to meet FIFA Quality performance

“

We would have no hesitation in using GreenFields in the future and recommending them to others.

## YOUR PERFORMANCE

GreenFields is proud to play a role in improving the experience of sports for people around the world. Our innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

## WHY GREENFIELDS?

GreenFields offers a range of high quality turf systems for a variety of sports, to meet each customer's unique demands and provide optimum playing conditions.

- Turnkey solution: design, installation and maintenance
- Installation of artificial turf and hybrid systems
- Innovative sports turf designed to maximise performance
- Dedicated to environmentally friendly systems
- Committed to research and development
