

USED AT TOP CLUBS WORLDWIDE, OUR PREMIUM 3G WOVEN PRODUCT OFFERS HIGH SPEED PROFESSIONAL PLAY

GREENFIELDS MX ELITE

Key benefits:

- Woven technology ensures maximum tuft lock
- Equal tuft spacing ensures natural ball roll
- Trio of fibres provides an elite playing performance
- 1-step recycling – backing and fibres part of the same polymer family

GreenFields MX Elite is a high-tech woven system offering the very best performance characteristics for both amateur and professional players.

The patented woven technology results in an extremely high tuft bind, stronger than that of traditional tufted products. This forces the fibres to stand even straighter and more closely resemble natural grass as well as facilitating positive infill movement which optimises performance. Even spacing between the tufts ensures equal ball roll in every direction combined with wider spacing between the individual fibres which enables easy decompaction of the infill.

GreenFields MX Elite offers the highest number of yarns per tuft with a mixture of our top performing yarns; Evolution®, diamond and trilobal shaped. This perfect fibre combination results in an optimum playing surface with a natural look as well as ultimate resilience.

“

Our pupils have found this to be a fantastic training surface for rugby to improve handling and a fast flowing game.

”

SIMON WILLIAMS

Director of Sport
Bury Grammar School

**NATURAL
BALL ROLL**

**HIGH RESILIENCE
DUE TO HIGH DENSITY,
FIBRES AND ELASTICITY**
