## OUR TOUGHEST SPORTS TURF WITH EXTREME DURABILITY FOR HIGH RATES OF PLAY

### GREENFIELDS XP

#### Key benefits:

- ▶ Tape fibres provide extreme durability
- ▶ Duotone fibres provide a natural look
- ▶ Minimal maintenance requirements
- ▶ Excellent split resistance from unique tape fibres

GreenFields XP is our most robust turf yet offering a consistent playing experience over long periods of intensive use. Featuring the most advanced fibrillated tape fibres manufactured by a patented process.

The end result - a narrower fibrillation pattern than other fibrillated tape fibres giving the end user a softer organic surface close to natural grass. Combine this with enhanced durability and increased comfort and safety for an excellent playing experience.

With high levels of usage possible, GreenFields XP is ideal for community and educational fields where rigorous play takes place. Plus, with minimal maintenance requirements it's a great solution for organisations without dedicated groundstaff.

“

We would have no hesitation in using GreenFields in the future and recommending them to others.

”
